<sup>2</sup>Here and elsewhere, my research mentees are underlined. These are students whose work I supervised during the research project. My name is given in **bold**. In these publication venues, the final author ("anchor author") provides the primary intellectual supervision of the work.

<sup>3</sup>In my research areas, top-tier conferences are the most prestigious venues for publication, with some journals considered comparable. The ICORE rankings are an international ranking system of conferences in which A\* venues are "best" and A venues are "reputable" venues; for either category, the peer reviewers are recognized experts in the field. Acceptance rates of ~10-25% across 100+ submissions are a good indicator of conference quality.
